

TechnologyRecord

Editorial highlights

Our planned content for the Winter 2026 issue of *Technology Record* includes:

KEYNOTE INTERVIEW

Rodrigo Kede Lima

We speak with the president of the recently created Microsoft Frontier Company about redefining productivity and reshaping work across every industry and region.

COVER STORY

Unlocking new markets

Technological advances are making it easier for enterprise leaders to reimagine operations and discover new opportunities. With insight from Kees Hertogh of Microsoft, we consider how this can be done in a dependable and sustainable way.

IN FOCUS

Microsoft Teams

A raft of new AI-powered enhancements to Microsoft Teams are being rolled out over the coming months, and Microsoft partners are continuing to develop new innovations to make the industry-leading collaboration platform even more effective for enterprise users. We profile some of the most exciting advances to come.

ALSO

There's much more, including feature articles focused on financial services, manufacturing, telecommunications, retail and the public sector, plus news, insight and interviews from a wide range of Microsoft partners.
